

Expect luxury & innovation with the Lux-V series!

Built with the latest full DC inverter technology and fast and efficient automatic defrosting, the Lux-V Series can handle any heating or cooling requirement - all year round.

Its stylish ABS and metal cabinet can withstand harsh weather conditions, while the vertical air discharge provides efficient airflow and space saving installation options.

The Lux V Series is packed with premium features, like its intelligent LCD touch screen controller, smart operating modes and wi-fi control.

- Stylish ABS & galvanised cabinet: durable against harsh weather conditions.
- Intelligent Controller: 4 smart operating modes
- C.O.P of up to 14.2
- Vertical air discharge
- Latest DC full inverter technology including compressor, fans & control
- Wi-Fi Control: control your pool heater anywhere, anytime.

Performance		Heating	Heating	Cooling
		Winter	Summer	Summer
Ambient Air Temp.	°C	15	27	35
Entering Water Temp.	°C	26	26	30
Heating/Cooling Capacity	kW	2.4~10.0	3.5~13.5	5.53
Consumed Power	kW	0.32~2.13	0.26~2.08	1.5
C.O.P.		7.5~4.7	13.5~6.5	3.65
