

**Our value performance EcoPro Series will extend your swim season and have you enjoying your pool longer!**

Designed with the latest inverter heat pump technology, the EcoPro Series is the affordable yet intelligent pool heater that provides comfortable swimming whilst providing cost-effective and eco-friendly pool heating. With 4 intelligent operational modes, the EcoPro will work efficiently according to its working conditions.

- Robust ABS Cabinet: durable against harsh weather conditions.
- Intelligent Controller: 4 smart operating modes
- C.O.P of up to 14.5
- Extremely quiet operation
- Latest DC full inverter technology including compressor, fans & control
- Wi-Fi Control: control your pool heater anywhere, anytime.

Performance		Heating	Heating	Cooling
		Winter	Summer	Summer
Ambient Air Temp.	°C	15	27	35
Entering Water Temp.	°C	26	26	30
Heating/Cooling Capacity	kW	7.8~24.4	8.15~35.1	14.63
Consumed Power	kW	1.07~5.55	0.57~5.18	5.41
C.O.P.		7.3~4.4	14.3~6.8	2.7
Power Supply		380-415/3/50		
Air Flow	m <sup>3</sup> /h	3500-4500		
Compressor	Type	Rotary	Brand	Panasonic
	No.	1		
Heat Exchanger	Material	Titanium	Type	Tube in shell
	Spiral (Twisted)	Yes		
Fan	No.	1	Power Input	40 W
	Speed	400-800 RPM		Direction
Operating Air Temp.	°C	-7 to 43		
Max. Rated Input Power	kW	7.23		
*Running Current at 100%	A	9.35		
Refrigerant		R32		
Casing Type		ABS		
Connection Type		hardwired		
Defrost		Auto Defrost (Reverse Cycle)		
Moisture Resistance		IPX4		
Noise (1M)	dB(A)	46-57		
Noise (10M)		19-30		
Water Connection	mm	40		
Water Flow Volume	L/min	230		
Water Pressure Drop (max)	kPa	16		
Net Weight	kg	99		
Net Dimensions (LxWxH)	mm	1159 x 490 x 858		

\*Running current does not include load of circulation pump.

Unit: mm	A (L)	B (W)	C (H)	D	E	F	G	H
	1159	490	858	738	466	428	428	96.2
